New TutorTrac

➔ **Redesign for actual problems**: current TutorTrac used by PLTC to register tutoring sessions is counter-intuitive, so we are motivated to make life easier for tutors & tutees alike 😋

➔ **Possible adoption**? Will talk to PLTC & gather thoughts on crucial features and key improvements

➔ **Tutor info accessibility**: department/course based presentation of tutors; estimation for tutors' capacity, zoom links/location & time more accessible

➔ **Student agency**: students can sign themselves in to tutoring sessions, see what sessions are available based on their course enrollment, and register ahead of time for a block where applicable (goodbye, Google Sheets!)
